FAIRCLOTH RUBBISH LANDFILL APPLICATION

1. DESCRIPTION OF PROPOSED MODIFICATION TO LOCAL SOLID WASTE MANAGEMENT PLAN OF HINDS COUNTY

Fairecloth Rubbish Landfill, Inc., is proposing a modification to the local solid waste management plan for Hinds County that would allow the expansion of the existing Fairecloth Class I rubbish facility known as Fairecloth Rubbish Landfill. Fairecloth Rubbish Landfill, Inc.'s, mailing address is Post Office Box 1296, Clinton, Mississippi 39060, and it has its offices at the site of the existing facility, which is located at 1312 Springridge Road, Clinton, Hinds County, Mississippi 39056. The existing facility consists of 335 total acres with a 26.1 acre permitted disposal area. The proposed expansion would be contiguous to the existing landfill and on approximately 29.2 acres of property, which are part of the total 335 acres owned by Fairecloth Rubbish Landfill, Inc. After subtracting for the required buffer area, the proposed expansion potentially would add 26.55 acres to the landfill's disposal area. The additional 26.55 acres cannot be used for disposal unless and until the requested modification is effective and a permit to use the additional acreage is issued by the Mississippi Environmental Quality Permit Board. The currently permitted 26.1 acres are permitted for and are used for the disposal and management of construction and demolition debris and other Class I rubbish. The additional 26.55 acres, if included in the plan and permitted by the Mississippi Environmental Quality Permit Board, will be used for the same purpose.
